13. Levels:
 - a) The competitor's level relates to his/her skill capability. Each competitor will determine their level of entry if they have never entered a competition before. The Competition Committee will substantiate this level. The same level of turning will apply to all categories of turning.
 - b) Where a competitor wins a category with three or more competitors, they will be promoted to the next highest level for all subsequent competitions.
14. Any concerns/complaints during the competition will be forwarded to the Competition Committee. Their decision will be final and binding.
15. Categories:
 - Spindle turnings will be defined as when there is a definite grain pattern that is parallel to the lathe axis when it is being worked.
 - Mandrel turnings will be any turnings in which a mandrel was used in production of the item.
