

Robert Atkinson.

Attached are a couple of pictures of my mallet. The head is beech, there is a decorative ring of Gabon ebony and the handle is bird's eye maple. The widest diameter is $3 \frac{3}{8}$ " (23.5 cm), length is $9 \frac{1}{4}$ " (23.5 cm) and the weight is 1.12 lbs (510 g). As I got tired of my old mallet rolling off the bench, I made this one so it would stand upright as well as lay down.

Robert.
