Nova Woodturners' Guild Season 8! Monday January 20, 2003

The fifth meeting of our eighth season will be **Monday January 20 at the Carpentry Shop, NSCC, at 7:00 pm.**

January Meeting:

Warman Castle and Stuart Taylor will present "Hollow Turning" and show how to sharpen the tools used for hollow turning.

December Meeting:

Jim talks with two NSCC carpentry students who stopped by to check out our meeting.

The guild was pleased to welcome several new individuals who were checking out our meeting for the first time after learning about our association while attending the Atlantic Woodworking Show in November. After we took care of several housekeeping issues, we got down to business with our demonstrations that attempted to give an introduction to basic woodturning & tool sharpening.

Special thanks to our presenters, Don Moore, Stephen Zwerling, and Jamie Wolverton who conducted three simultaneous demonstrations on bowl turning, tool sharpening, and plate turning respectively.
